### IN THE KNOW

## *New!* LIMITED-EDITION<sup>†</sup> MARY KAY® LIP TINT, \$18 EACH

The beauty of the new lip tint is the versatility. You can simply swipe it on for a hint of color, or build the color for a full-on power pout!

- You can use the new lip tints alone or as a base to boost the color of your favorite *Mary Kay*® lipstick or lip gloss.
- Always store your lip tints with the tips pointed downward. If the lip tints are not stored this way, drying out may occur.
- If the product appears to have dried out, place the cap firmly back on the lip tint, and place it tip facing down in a vertical position for 24 hours to reactivate.
