

INDUGLE IN OUR TIMEWISE REPAIR REVEALING RADIANCE FACIAL PEEL

HOW IT WORKS

The key to this new innovation is glycolic acid, considered by experts to be the gold standard among alpha hydroxy acids.

- The peel takes a multilayer approach to surface exfoliation. Glycolic acid removes dead skin cells from skin's top surface layer and also works on the remaining surface layers.
- By increasing the rate at which skin-dulling dead cells on multiple surface layers are eliminated, the power of glycolic acid enhances skin's own renewal process for a rejuvenated look.

It also significantly smooths skin, reducing the "hills and valleys" associated with a drier, rougher texture.

HOW TO APPLY

STEP 1: Thoroughly cleanse and dry skin.

STEP 2: Apply a thin layer of Timewise Repair Revealing Radiance Facial Peel on the face, avoiding the eye area, and massage gently into the skin.

STEP 3: After 10 minutes, rinse skin thoroughly with warm water and pat dry.

***10 MINUTES *NO DOWN TIME *TWICE PER WEEK**
